

Math 2-5: Measurement and Data: Represent and Interpret Data

Data Representation

Students

Learning Continuum Statements:

Students:

RIT 171-180:

- Represents data in bar graphs with multi-unit scales
- Represents data in bar graphs with single-unit scales

Students:

RIT 181-190:

- Represents data in bar graphs with multi-unit scales
- Represents data in pictographs with single-unit scales

Students:

RIT 191-200:

- Represents data in bar graphs with multi-unit scales
- Represents data in line or dot plots with whole number scales
- Represents data in pictographs with multi-unit scales
- Represents data in pictographs with single-unit scales
- Represents data in tables or charts

Students:

RIT 201-210:

- Represents data in bar graphs with multi-unit scales
- Represents data in line or dot plots with whole number scales
- Represents data in pictographs with multi-unit scales
- Represents data in picture graphs with multi-unit scales

Students:

RIT 211-220:

- Represents data in line or dot plots with fractional scales
- Represents data in line or dot plots with whole number scales

Students:

RIT 221-230:

- Represents data in histograms
