

## Math 2-5: Measurement and Data: Represent and Interpret Data Populations/Random Processes

Students

Learning Continuum Statements:

Students:

**RIT 211-220:**

- Analyzes data from samples to make inferences about populations

Students:

**RIT 221-230:**

- Analyzes data from samples to make inferences about populations

Students:

**RIT 231-240:**

- Analyzes data from samples to make inferences about populations
