

Math 2-5: Operations and Algebraic Thinking: Represent and Solve Problems

Algebraic Expressions

Students

Learning Continuum Statements:

Students:

RIT 211-220:

- Evaluates linear expressions at given values with variables involving positive rational numbers

Students:

RIT 221-230:

- Evaluates linear expressions at given values with variables involving positive rational numbers
- Translates between verbal and algebraic expressions

Students:

RIT 231-240:

- Evaluates linear expressions at given values with variables involving positive rational numbers
- Translates between verbal and algebraic expressions
- Writes linear expressions in one variable to represent real-world or mathematical contexts

Students:

RIT 241-250:

- Evaluates linear expressions at given values with variables involving positive rational numbers
- Interprets equivalent linear expressions within a real-world context

Students:

RIT 251-260:

- Interprets equivalent linear expressions within a real-world context

Students:

RIT 261-270:

- Interprets equivalent linear expressions within a real-world context
